

# My Plane Ride Adventure

A social story for Kairav — Preparing for air travel with sensory expectations and calming strategies

1

I am going on a plane ride today. Henny and Bruno are coming with me to the airport.

2

I sit in my airplane seat. My seat belt clicks and keeps me safe.

3

The plane goes up high in the sky. My ears feel funny when we go up.

4

I can chew gum to help my ears feel better. I have a snack and watch the screen.

5

The plane lands safely in a new place. My plane ride is all done and I feel good.
