

# Can I Play?

A social story for Kairav — joining in when other children are already playing together

1

I see my friends playing together. They look like they are having fun.

2

I want to join them. First I can watch for one minute.

3

I can tap 'can I play' on my Avaz. That shows my friends what I want.

4

My friends say yes! They are happy I want to play with them.

5

Now I am playing too. We are building together and having fun!
