

# I Can Say What I See

A social story for Kairav — Using AAC to comment and share observations about the world around me

1

I am at the park with Bruno. I see many things around me.

2

I see Milo doing something funny. I want to tell Bruno about it.

3

I tap on my AAC. I see cat.  
I tap funny too.

4

Bruno looks where I point.  
He sees funny Milo too!

5

I like telling Bruno what I see. Talking about things is fun.
