

I Order My Own Food

A social story for Kairav — Using AAC to order food at restaurants with confidence

1

I am at a restaurant with Henny and Bruno. I can order my own food today.

2

I look at my menu on Avaz. I can choose what I want to eat.

3

I tap on my tablet. I want idli please. Avaz helps me say the words.

4

I show my screen to the waiter uncle. He reads my words and smiles big.

5

The waiter says idli is coming soon! I ordered my own food with Avaz. I feel proud and happy.
