

My School Talk

A social story for Kairav — Using AAC to connect with friends at school

1

My Avaz is on my desk at school. It helps me talk to my friends.

2

I tap 'hello' on my Avaz to say hi to Bruno. That feels good.

3

Bruno says hello back to me. He is happy to hear from me.

4

At break time I tap 'play' on my Avaz. My friends know what I want to do.

5

We play together and have fun. My Avaz helps me make good friends at school.
