

# Plugs Are Not Toys

A social story for Kairav — learning that electrical outlets are not safe to touch

1

I see plugs on the wall.  
Plugs have electricity  
inside.

2

Electricity is not for my  
fingers. I keep my hands  
away from plugs.

3

When I want to charge  
something, I can ask a  
grown-up.

4

Mama plugs it in for me. I  
wait and watch from here.

5

My hands are safe. My  
body is safe. I play with my  
toys instead.
