

# When I Am Thirsty

A social story for Kairav — Recognizing thirst and asking for water using AAC

1

My mouth feels dry. My tongue feels sticky.

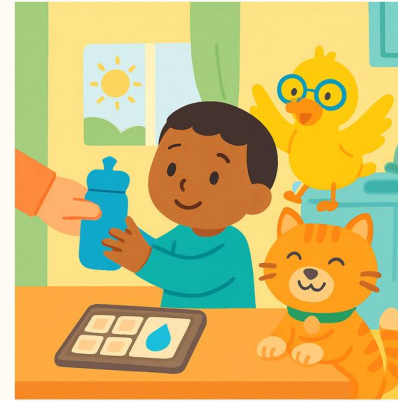

2

That feeling means I am thirsty. Quacky feels thirsty sometimes too.

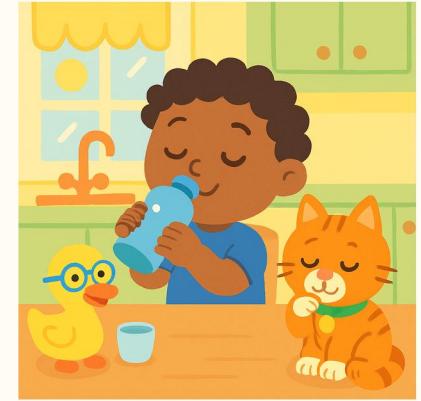

3

I can tap 'water' on my Avaz. This tells everyone I need a drink.

4

Someone brings me water. I hold my bottle carefully.

5

Sip sip sip. My mouth feels fresh now. I feel better.
