

Avaz Speaks For Me

A social story for Kairav — Using AAC to communicate with family members who speak different languages

1

My Avaz speaks for me. It says my words in English.

2

Dadi speaks Hindi at home. Sometimes she does not understand my Avaz words.

3

I tap 'water' on my Avaz. My tablet says the English word clearly.

4

Mama listens to my Avaz. Then she tells Dadi the Hindi word: paani.

5

Now Dadi understands my words. My Avaz helps our whole family talk together.
