

# Dadi Learns My Avaz

A social story for Kairav — helping grandparents understand and use AAC communication

1

I have my Avaz tablet. Dadi has never seen it before.

2

Henny taps 'hello' on my Avaz. The tablet says the word out loud.

3

Dadi laughs and wants to try too. I show her how to tap the buttons.

4

We look at the food page together. Henny shows Dadi her favorite button.

5

Now Dadi knows about my Avaz. She listens when it talks for me.
