

My Low Battery Plan

A social story for Kairav — what to do when my AAC device battery gets low

1

My Avaz shows low battery. I see the red number.

2

Low battery makes me feel worried. That is okay.

3

I can tell Mama. She has my charger and power bank.

4

Mama gives me my paper card. It has words I need.

5

I point to water on my card. My Avaz charges and I feel okay.
