

Safe On The Tablet

A social story for Kairav — staying safe while using tablets and online content

1

I love my tablet. It has fun videos and games.

2

Sometimes I see videos that are not for kids. That makes me feel uncomfortable.

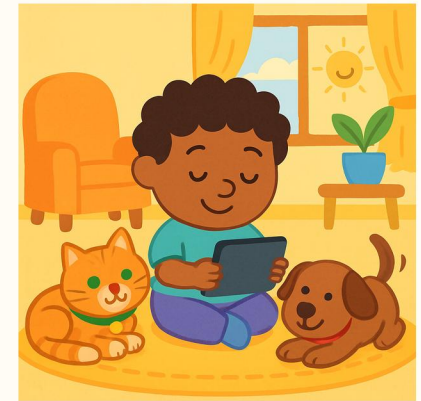

3

I can stop the video and tell Mama. I can show her on my tablet.

4

Mama helps me pick safe videos. I ask before I talk to strangers online.

5

Now I feel safe with my tablet. I use my safe apps and videos.
